

Amenze Sholanke

Senior UX Designer · Product Design

amenzeb@gmail.com · [linkedin.com/in/amenzesholanke](https://www.linkedin.com/in/amenzesholanke) · Calgary, AB

SUMMARY

Senior UX Designer with 5+ years of experience designing intuitive, accessible healthcare and SaaS experiences. Skilled in user research, usability testing, and design systems, with a technical foundation in front-end development. Proven track record collaborating cross-functionally to deliver data-informed, scalable products that drive engagement and meet enterprise compliance standards.

EXPERIENCE

Ion Design (YC W24) — Product Designer

June 2025 – October 2025

Designed and shipped AI-integrated design tools through rapid experimentation and user validation in a fast-paced startup environment.

- Developed a hybrid Layers Sidebar experience blending prompt-based AI with traditional UX patterns, increasing user engagement by 40%.
- Collaborated with product and engineering to define scope, navigate technical constraints, and launch testable concepts iteratively.
- Established foundational design system components in Figma, ensuring WCAG accessibility and visual consistency across AI-driven features.

Ambyint — Product Designer

March 2024 – Present · Calgary, AB

Led end-to-end UX design for an enterprise energy management platform, translating complex operational data into intuitive, accessible experiences.

- Redesigned the Overview dashboard through iterative user research and usability testing with 15+ operators, increasing engagement by 60% and reducing time-to-insight by 40%.
- Designed secure authentication flows (MFA and SSO) meeting enterprise security and compliance standards, reducing support tickets by 50% and improving accessibility.
- Partnered with engineering and product teams to validate concepts, navigate technical constraints, and ensure seamless design-to-development handoff.
- Built comprehensive Figma design system documentation enabling scalable, async collaboration across distributed product teams.

Critical Mass — Front-End Developer !' Product Design Partner

March 2021 – March 2024 · Calgary, AB

Transitioned from Front-End Developer to Product Design Partner, bridging design and engineering for high-traffic consumer web experiences.

- Designed and implemented accessible, interactive components for BMW USA's digital platform, ensuring WCAG compliance and visual consistency.
- Improved design-to-development handoff workflows, reducing production issues by 30% through clear documentation and technical collaboration.
- Supported A/B testing initiatives to measure design impact and refine user engagement strategies.
